

# Bosch ICON™

**BOSCH**

Invented for life

## Optimized for Extreme All-Weather Performance.

Windshield curvatures and aerodynamics have become increasingly complex over the years. Wiper blades need to bridge the contact gap between the wiping edge and the windshield for maximum wiping performance.

Bosch ICON™ addresses this need with **DynamicFit™ technology** – exclusive tension spring arcing technology which adapts to the entire curve of the windshield. The flexibility of ICON™ beam blades allow them to properly hug the windshield no matter the curve of the driver and passenger sides.

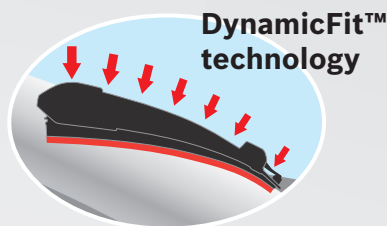

An additional program benefit is the consolidated SKU count which reduces most of the “B” part numbers making blade selection easier for you and your customers.

### Over 90% total hook & OE coverage

#### Hook Arm Product Range Coverage

Part #	Length (in.)	% Coverage
13A	13	1.2%
15A	15	0.9%

Hook Total		74.4%

\* for use on opposed-pattern wiping systems

**DynamicFit™ technology**

Optimized beam bending technology adapts to the entire curve of the windshield.

**Weather-shield, double-locking connector** offers easy and secure installation.

**ClearMax 365™ rubber technology** combines a soft rubber core with a powder-coated shell.

- Protects the wiping edge from ozone deterioration, snow, sleet, rain, and road debris for longer life
- Reduces wiping friction for quieter performance
- Resists contaminants such as fluids, salts, insects and other road debris for streak free visibility

**Asymmetrical spoiler** maintains consistent blade contact with the windshield for superior performance at all speeds.

# ICON™ Wiper Blades with ClearMax 365™

## ICON Wiper Blades OE Fitment Solutions

### The Simple Solution to OE Fitment

Bosch continues its innovation and leadership with the ICON OE Multi-Clip connector. Designed to tackle the ever increasing number of top-lock and side-lock applications in the market, the Multi-Clip features a flexible connector system, simplifying the installation process for all types of vehicles.

### Designed with Total Performance in Mind

This Multi-Clip connector design not only offers outstanding performance, it also provides a clean, attractive look that can complement any vehicle.

## Most Popular OE Connection Types Covered by ICON ClearMax 365™

**Side Lock  
22 mm**

**Side Lock\*  
19 mm**

**Top Lock
